Event Report:

Our NSS unit organized Health Checking Camp in our college on 17.07.2019. Today, due to the fast life many women are facing a lot of problems due to low hemoglobin. Therefore the NSS volunteer decided to organize the hemoglobin testing & health check up camp for all girls, ladies teaching and non- teaching staff. Hemoglobin (Hb) is the protein in our red blood cells that carries oxygen. A low hemoglobin count is a below-average concentration of the oxygen-carrying hemoglobin proteins in your blood. A low hemoglobin count is generally defined as less than 13.5 grams of hemoglobin per deciliter (135 grams per liter) of blood for men and less than 12 grams per deciliter (120 grams per liter) for women. This program got the overwhelming response by all volunteers, teaching and non- teaching staff checked their health.
