

AGREEMENT

This agreement is between **M.K. Management Services (Pune, MH)** and Applicant/Candidate **Mr. /Ms. /Mrs. Abhijit Mahadev Sankpal** for the position of SAPMM consultant as Trainee in the Company Bluestream Software with including the following terms of conditions.

A. FEES

1. All Job positions/profiles recommended through M.K. Management Services are paid service only.
2. Candidate will be charged for consulting/referring the desired position. These fees are for our services and efforts which we provide to the candidates and NOT for the Company in which we hire candidate for. Company is NOT at all involved in this agreement.
3. Fees can vary depending on the Profile, Salary, and Location etc.
4. Fees will be taken in advance, and then only Joining Procedure will be started.
5. After paying the fees, joining procedure can take up to 48 hours from the time of fees paid.

B. REFUND POLICY

1. Candidate will **NOT be refunded** at any cost once he/she is placed/ recruited.
2. If Candidate receives the offer letter after successfully completion of the training, and after joining, we are not responsible for there are any issues with candidate and company policies.
3. Candidate will be refunded if they want to cancel the application before receiving the confirmation/ appointment letter from the company, or if Company rejects in the interview at very first place.
4. Candidate should NOT ask for any refund to the Company for which they are working for. As company has nothing to do with the Consulting Fees you paid to M.K. Management Services.
5. Candidate is responsible of their own Performance Metrics in the company, if candidate is fired from the company because of making mistakes or blunders in the work; M.K. Management Services is not responsible for that. Also, NO refund will be initiated.
6. Candidate will NOT be refunded, if he/ she leave the Training/ Job due to personal reasons.

I, **Mr./Ms./Mrs. Abhijit Mahadev Sankpal** agree to the above terms of conditions and are willing to join to the company referred by **M.K. Management Services**.

Candidate's Name and Signature.

Welcome Letter

26 January 2022

Congratulations Aniket Shamrao Patil !!

We would like to congratulate you on being selected for the **"Web Developer Intern"** Internship position with **LetsGrowMore**, effective from **"1 February 2022"**. All of us at **LetsGrowMore** are excited that you will be joining our team! We hope you are elevated to start this innovational journey with us.

This Internship is viewed by **LetsGrowMore** as being an educational opportunity for you. As such, your internship will include orientation and focus primarily on learning and developing new skills and gaining a deeper understanding of concepts through hands-on application of the knowledge you learned in class. And, you will find yourself adjoining with numerous opportunities to refine and flaunt your skills.

While performing the internship, you acknowledge your obligation to perform all work allocated to you to the best of your ability and comply with all lawful and reasonable directions and instructions given to you. We look forward to an abiding and fruitful association with you and are sure that you will look back at your engagement with us as a gratifying experience.

Wishing you all the best!

Warm Regards,

Aman Kesarwani

ACKNOWLEDGEMENT

Purpose of acknowledgements page is to show appreciation to those who contributed in conducting this dissertation work / other tasks and duties related to the report writing. Therefore when writing acknowledgements page you should carefully consider everyone who helped during research process and show appreciation in the order of relevance. In this regard it is suitable to show appreciation in brief manner instead of using strong emotional phrases.

In this part of your work it is normal to use personal pronouns like “I, my, me” while in the rest of the report this articulation is not recommended. Even when acknowledging family members and friends make sure of using the wording of a relatively formal register. The list of the persons you should acknowledged, includes guide (main and second), academic staff in your department, technical staff, reviewers, companies, family and friends.

You should acknowledge all sources of funding. It’s usually specific naming the person and the type of help you received. For example, an advisor who helped you conceptualize the project, someone who helped with the actual building or procedures used to complete the project, someone who helped with computer knowledge, someone who provided raw materials for the project, etc.

(Students Name & Signature)

Abstract

Most difficult and important component of report/seminar is to write abstract. Presented at the beginning of the report, it is likely the first substantive description of your work read by an external examiner/reader. You should view it as an opportunity to set accurate expectations. The abstract is a summary of the whole project work.

It presents all the major elements of your work in a highly condensed form. An abstract often functions, together with the project title, as a stand-alone text. An abstract is not merely an introduction in the sense of a preface, preamble, or advance organizer that prepares the reader for the report.

In addition to that function, it must be capable of substituting for the whole report when there is insufficient time and space for the full text. The final version of the abstract will need to be written after you have finished reading your report for the last time. However, if you think about what it has to contain, you realize that the abstract is really a summary of your project/seminar work.

Your abstract should answer specific questions: What was done? Why was it done? How was it done? What was found? What is the significance of the findings?

----------------	--------------------	-----------------

LIST OF TABLES

Sr. No.	Table Name	Page No.
----------------	-------------------	-----------------

INTRODUCTION TO **INTERNSHIP TOPIC**

1.1 Introduction to Project

Students are expected to write brief introduction of the project topic. This section may be common for all the students of that group. However students can have different approach in explaining their project.

Since we are not going to get separate project report from the students, it is good to have one or two pages common for all the students of that project. Once this project introduction and aim objectives of explained, students can start with actual seminar content writing.

1.2 Motivation behind project topic

Students are expected to write “Why they thought about this project”. They could also explain the “Explain need of the project”. Any statement which motivated to take up this project

1.3 Aim and Objective(s) of the work

Project aims are a statement of the overall “Why” of the project. A project aim is a statement starting with the words: “The aim of this project is...”

That statement tells the reader what your overall goal is, what it is you want to achieve. It does not go into details or describe specific tasks.

Project objectives tell the “How” of the project aim. You want to achieve your goal and the objectives state how this will be done – what major tasks will be undertaken and what your major targets are. Most projects will have between six and nine objectives. A project objective is usually a statement starting with the words “To...”

Objectives are subsidiary to aims and are the steps you are going to take to answer your problem statement or a specific list of tasks needed to accomplish the goals of the project. This must be highly focused and feasible and should address the more immediate project outcomes

Guide must personnel check these aim and objectives and make students write these statements properly.

1.4 Introduction to **Internship Topic**

Internal guides need to clearly identify separate topics for individual students while preparing seminars. It should be based on project topic/area.

1.4.1 Aim and Objectives of Internship

1.5 Organization of the report

CHAPTER 2

TECHNOLOGIES USED IN INTERNSHIP

Students are expected to write similar or related work already done by various researchers. They could also explain existing tools/technologies in this section. There advantages and disadvantages of each method or technique. They should also explain how their project is different from those existing systems. You need to read lot of books/ papers/ magazines for making this survey.

CHAPTER 3

INTERNSHIP RELATED OTHER CHAPTER

All other details of seminar topic chapter-wise if necessary including methodology/algorithms, advantages and disadvantages, applications, enhancements could be added.

CHAPTER n

CONCLUSION

Conclusions usually serve two functions. The first is to summarize and bring together the main areas covered in the writing, which might be called "looking back" . The second is to give a final comment of your Internship.

For example you could say this Internship is undertaken to explain..... and evaluate This study has found that generally Or In this Internship we
