Department of Instrumentation & Control Engineering – 2016-17

 The department of Instrumentation engineering is a multidisciplinary branch. The primary focus of instrumentation engineering is to design, construct and to maintain the modern instrumentation system thereby improving system productivity, reliability and stability. To meet the industrial requirements of future and keeping in mind the great potential and demand for modern instrumentation systems, students are made to become well

versed with applications in Process Instrumentation, Control Systems Design, Programmable Logic controller, Digital Signal Processing Architecture and Design, Microcontroller System Design and Experimentation, sensors and transducers, etc. The Department aims at imparting its students and scholars with the latest knowledge and hands on practical training in the field. **Many of our students are taking higher education at abroad & the good bunch of students been recruited in MNCs like Honeywell, Emerson's, Forbs Marshal etc.**

Departmental Activities

1.100000/- Grants received for State Level Seminar on **Analytical Instrumentation and its applications** from BCUD, Savitribai Phule University of Pune year 2016-17.

2. 190000/- Grants received for Research Proposal on **Arrhythmia monitoring and analysis of ECG signals** from BCUD, Savitribai Phule University of Pune year 2016-17.

3.75000/ Grants received for research Proposal on noninvasive optical blood glucose measurement from BCUD, Savitribai Phule University of Pune year 2016-17.

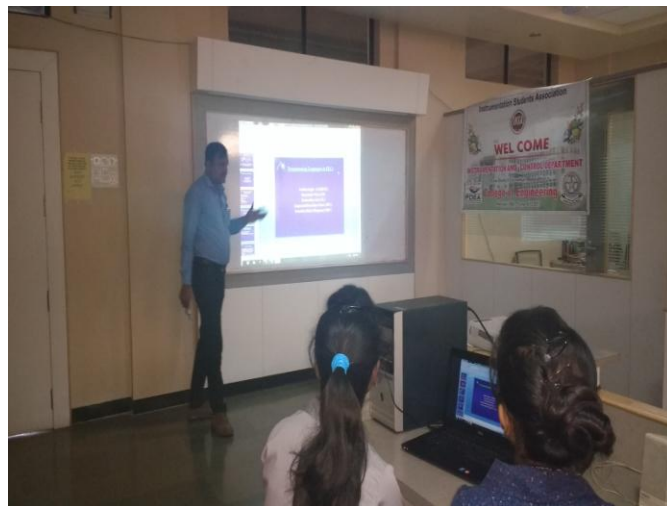

Industrial Visit :

1] Industrial visit for TE student at Alcohol Dept, Vasantdada Sugar Institute Pune Organized by Prof. S.T. Sanamdikar .

2] Industrial visit for TE student at Inamdar Hospital Fatimanagar pune organized by Prof. Navya Setu.

Guest Lecture:

1. Guest lecture organized for TE and BE students in Process Instrumentation. by *Hanumant Dete, Director, Dunamis SEPL, Pune.*

2] Guest lecture organized for BE Instrumentation students on Advanced Instrumentation by Mr Swananda Vaze, Our Alumni.

Statelevel seminar on Analytical Instrumentation and its applications

Mr Waman Sanap ,Director of IPAC Automation .

Dr A.D.Gaikwad Director NISE Instrument Coy,Pune.
